FACIAL MUSCLE TONING

NEUROMUSCULAR TECHNOLOGY

VISAGE has undergone rigorous clinical trials, and its ergonomic design and ease of use allow beauty professionals to easily integrate it into their procedures.

BECAUSE BEAUTY IS IN THE MUSCLE

VISAGE completely changes the game in the field of facial beauty treatments.

It is the new treatment for facial sagging and lack of skin firmness. It simultaneously treats the skin and muscles of the face thanks to its Neuromuscular technology, thereby reshaping and tightening the skin while increasing the levels of collagen and elastin fibers.

Neuromuscular emissions work directly on the facial muscles, helping to tone them and improve firmness, especially in problematic areas such as the zygomatic muscles, forehead muscles, and the platysma (double chin).

UNPRECEDENTED INNOVATION:

We have brought you the most futuristic engineering:

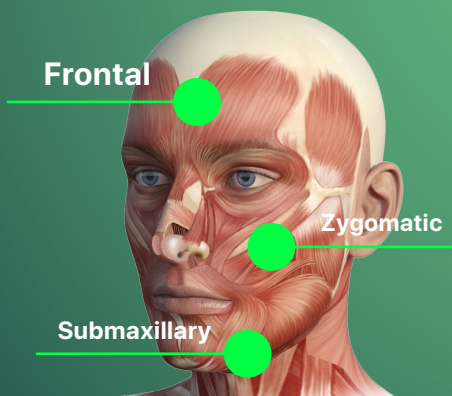

CONTROL BY TABLET:

All device management in your hands and remotely.

CLOUD SOFTWARE:

Track progress accurately and manage your WONDER from anywhere.

THREE SIMULTANEOUS ZONES:

- **Frontal:** Produces skin tightening and increases muscle tone.
- **Zygomatic:** Reduces nasolabial folds and has a preventive effect.
- **Submaxillary:** Reduces the double chin.

UNPRECEDENTED TECHNOLOGY:

Neuromuscular technology in facial treatments with VISAGE offers you several benefits:

- **Deep Facial Rejuvenation:**
Neuromuscular technology promotes the production of collagen and elastin.
- **Muscle Stimulation:**
Neuromuscular technology stimulates the facial muscles, which can help tone and improve the facial contour.
- **Improved Circulation:**
Neuromuscular technology can increase blood circulation in the treated area, leading to more radiant and healthier-looking skin.
- **Non-Invasive Treatment:**
No cuts or surgeries are required, reducing recovery time and the risks associated with invasive procedures.
- **Visible Results:**
Softer, firmer, and more rejuvenated skin after undergoing treatments with Neuromuscular technology.
